

About The Program

CHI St. Joseph's Health is helping those with Parkinson's move better and live better through our new Parkinson's Exercise & Wellness Program. Although there is no cure for Parkinson's disease, it can be managed.

Parkinson's Exercise & Wellness Program is a Parkinson-specific approach that directly targets "4" foundational Movements (PWR!Moves) to slow the progression of Parkinson's disease.

Research-based integrated exercise and wellness programming is necessary to counteract the inactivity, motor deterioration, and symptoms of Parkinson's disease.

PWR!Moves Instructors

Alicia Reardon is a Certified Exercise Physiologist, Certified Cancer Exercise Trainer, and PWR!Moves Certified Instructor with a degree in Exercise Physiology.

Deanne Kivi is a registered licensed Occupational Therapist and PWR!Moves Certified Instructor.
