

Move! Because You're Worth It

Finally!! An exercise program developed with you in mind!

We especially created **MOVE!** for you to give you individually-tailored exercise training that is motivational, fun, and challenging -- for anyone of any fitness level.

MOVE! is a medically-supervised exercise program that will help you build strength and cardiovascular endurance. For your safety, every exercise will be modified to your exact fitness level as determined by our experts. All you need is a good pair of shoes and comfortable clothing, then catch the **MOVE!** spirit the moment you enter our gym.

CHI St. Joseph's Health Weight Management Center works to make the communities that we serve healthier places to live. Programs such as our **MOVE!** exercise experience work to improve lives and give participants the tools they need to meet and sustain their health goals.

At your Service

Please feel free to use our locker rooms complete with walk-in showers and private bathrooms.

Towels, water, and individual adaptations are included at every **MOVE!** session.

Because You're Worth It

Each **MOVE!** session begins with a warm-up period of low-intensity cardio exercise and stretches. You will then participate in a variety of exercises including strength training, cardio, core stability, and balance training.

Staff will monitor your progress and challenge you as indicated. Together we will celebrate your success. We hope to make these sessions motivational, inspirational, and fun, so bring your **MOVE!** spirit and awesome attitudes.

Together let's **MOVE!** mountains!

Do it
For YOU!
